Dear Mrs. Wheeler:

Re: 1996 Assessment for
San Pitch River (47-1B)

We thank you for your payment in the amount of \$25.00 which we received June 28. In checking our records I found the total assessment of \$93.18 was correct. Because, your payment was past due a 10% penalty was added bringing the total to \$102.50.

Each assessment is pro-rated in comparison to the amount of water used by individual water users during the water season. The commissioner reported you used 610.47 acre-feet of water during the 1995 water year, which is much more than previous years. According to our records you have been properly assessed and I am enclosing a billing for the balance due of \$77.50.

If you have any other concerns regarding the usage, please contact Commissioner Larry Rawlings at (801) 436-8522 or feel free to contact me at 538-7381.

Sincerely,

Bonnie D. Duncan
Secretary for Distribution
& Adjudication
